Golden Spike Train Club of Utah

Status Update: All track for Roper Yard is now laid down, secured, and wired with feeders. We also have several Tortoise switch machines installed from our old Warm Springs layout. We will be able to accept appointments to tour the layout once it becomes operational in a few months. MAKING PROGRESS !!

Note: We accept donations. We are a 501(c)3 organization, so they may be tax-deductible. Talk to your tax advisor.

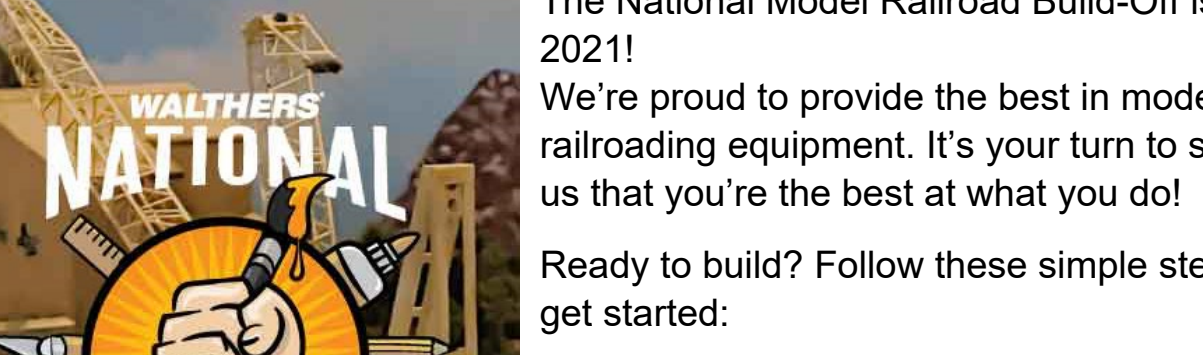

We welcome any new members who can contribute time, skills or resources to our club. Message us and we will send you an application with details on pricing options!

South Weber Club Model Railroad Club

Join us at Canyon Meadows Park (631 E Petersen Pkwy, South Weber, Utah) May 15th for train rides around the park again!

If you are, or recently have been, showing flu-like/covid like symptoms we ask that you please stay home, this is a monthly event. Due to eased Covid restrictions we are no longer using social distancing train cars. This means lines will be shorter and trains will be at full capacity! Masks are welcomed, but not required.

As always, the train rides are free but donations are greatly appreciated to maintain the trains and expand the track. Especially this year as we are way behind on donations for our insurance next year! Bring your friends and family and be ready for fun!

NMRA National Convention News

As you've heard, NMRA 2021 Rails By The Bay has transitioned to a video-rich, online virtual convention scheduled for five days from July 6-10, 2021. We'll be offering live online video clinics and panel programs, with real-time Q&A with speakers. All video will be offered using high-bandwidth, high-resolution, pro-level service from Zoom, supplemented by online chat via the Slack platform. We have clinic Frank Markovich MMR® will describe building parts of the "Magic of Scale Model Railroading" exhibit at the California State Railroad Museum. We'll also be offering pre-recorded video layout tours, coupled with live Q&A with layout owners. You'll virtually visit the top-quality layouts of modelers like Jack Burgess, Guy Cantwell, Dave Connery, Bill Decker, Dave Connery, Otis McGee, Dave Stanley, and more. We're also developing an online, photo-based model show so you can showcase the models you've built in the past year, with a "meet the modeler" panel so you can chat about techniques. Interested in layout design? We'll offer a complete LDSIG program including videos of LDSIG-oriented layouts grouped in one block, and a panel discussion about lessons learned and layout improvements. For operators, virtual op sessions (either as an active participant or viewer) also are under development. We will offer a number of channels for interaction among the attendees to capture some of the feeling of meeting old friends in the hallways. Each convention day will run 9:00 am to 9:00 pm, Pacific time. Most content will be recorded and available for playback for a period of two weeks after the original live presentation. A dedicated team of volunteers is working to make this a great convention.

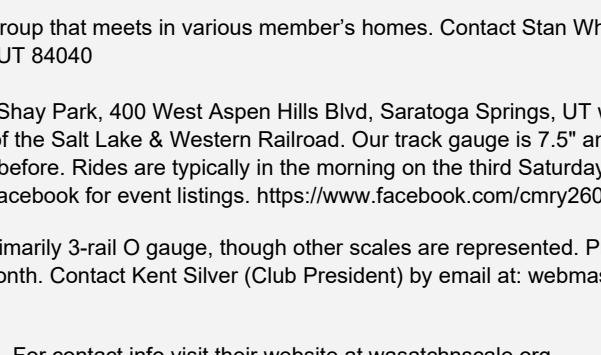

To request a mail-in, paper registration form, send email to: registrar@nmra2021.com.

For further convention information, contact publicity@nmra2021.com.

2020-2021 have been a year unlike any other, and we appreciate your patience and positive support as we continue to develop the convention under challenging conditions.

Visit www.nmra2021.com for further information.

The National Train Show, which is separately planned and operated, also is canceled.
